### Abstract

An international transaction system for operation over the internet/intranet

provides a pre-transactional calculation of all charges involved in any

international transaction. Upon the option of the customer, the goods can be

5 viewed on catalogue sheets translated to a language of the customer's choice, and

the price provided in a currency selected by the customer. The customer also has

the option of initiating the order with automatic credit authorization, generation of

an electronic title or commercial invoice and arrangements and payment of

shipping charges and any taxes and import/export duties.
